

Mount Litera
Zee School

NURTURING POTENTIAL, UNLEASHING BRILLIANCE.

**IGNITING THE PASSION,
NURTURING GROWTH,
SHAPING FUTURE LEADERS !**

Mount Litera Zee School is a premier chain of K-12 schools in India, dedicated to delivering high-quality education and fostering holistic development. It is a part of Zee Learn Limited, one of India's most innovative educational organisations.

Mount Litera Zee School provides personalised learning and an NCF 2023 aligned curriculum that fosters holistic development and 21st-century career-oriented skills. The school emphasises essential learning and ensures global readiness through advanced infrastructure. It follows best practices such as STREAM integration, competency-based assessments, inclusive education, technology-enabled learning, and life-skills development, creating a strong foundation for future leaders.

Principal's Desk

As an educator , I firmly believe in the proactive role that an educational institution can play in the welfare of the society. I consider it an honour to be entrusted with the responsibility of this wonderful institution which is already moving on to the path of a progressive and holistic approach to child care and development.

Character Building is the most important aspect of building a bright future for the future generations and it is equally important to focus on leadership training, self-governance, decision-making, crisis management etc., along with mastery of regular subjects at school.

Our endeavor at MLZS is to provide a platform where our students can take up opportunities and the challenge to do things they are capable of and rise to their potential, on all fronts – curricular and co-curricular. The school is lucky to have an enthusiastic bunch of students and teachers who are eager to help them learn and grow.

I believe in the motto “Training For Life”, where effective , meaningful and joyful learning takes place. It is here that we begin to learn our lessons of life – to accept challenges, face competition, even to have the courage to fail and then stand up to move on to victory and triumph.

“There are two ways to be happy in life, never give the help of tears to your emotions & never give the help of words to your anger.”

Best Wishes

S V Lavanya

MA. B.Ed

“ If a plant is carefully nurtured by a gardener, it will flourish. Children are like those plants which need to be nurtured with care so that they can excel in their chosen fields”.

Our Vision

To create an excellent educational institution that synthesises human values with high-quality teaching and learning using modern technology-driven tools to prepare a well-rounded personality for society.

To shape global minds on Indian soil and ensure that the school provides every student with access to world-class infrastructure and an innovative curriculum promoting the all-round development of the child while imbibing traditional values.

Our Mission

Mount Litera Zee School prepares students to understand, contribute, and succeed in a rapidly changing society.

We ensure that students develop both the skills and competencies essential for success in the emerging creative economy. The school promotes leadership, practical and theoretical knowledge, and encourages students to improve conditions for local and global communities.

Teaching Methodology

A Unique Learner Profile (ULP) is a comprehensive and personalised overview of a student's learning abilities, preferences, and needs, developed through periodic diagnostic assessments based on principles of neuroscience. The ULP highlights the student's cognitive, emotional, and academic strengths and challenges, focusing on the following 10 dimensions of growth: Cognitive, Physical, Social, Emotional, Ethical, Creative, Environmental, Technological, Cultural, and Spiritual, guiding them from exploration to mastery.

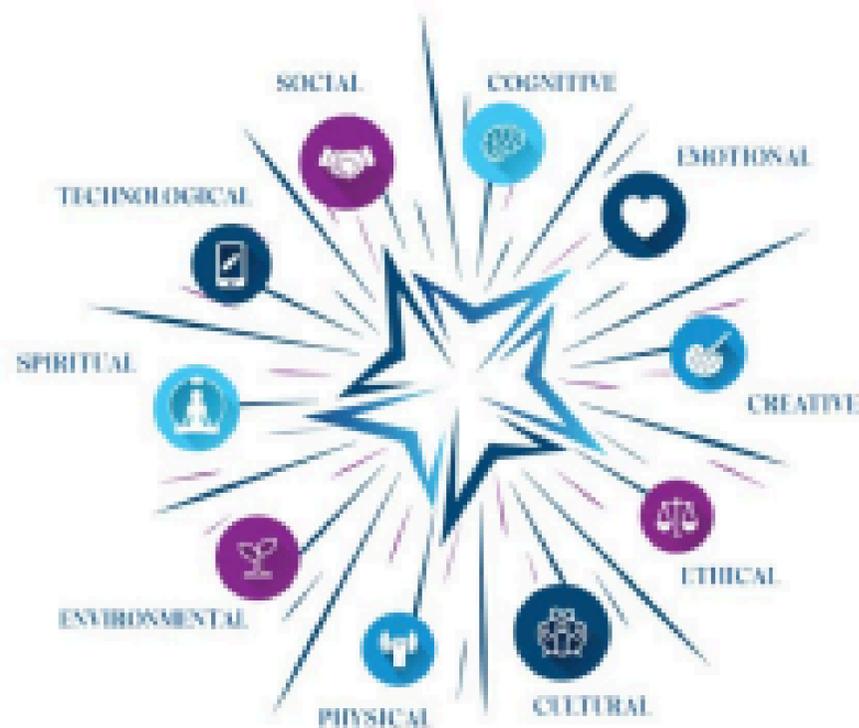

This is achieved by combining four essential components of the ULP: Knowledge, Values and 10 Career-Oriented Skills and Competencies: Critical Thinking, Creativity, Communication, Collaboration, Citizenship, Crisis Management, Cultural Intelligence, Computational Skills, Commercial Awareness, and Confidence.

Unique Learner Profile The ULP constantly guides educators in tailoring diversified learning strategies, ensuring that each student receives the support they need to ignite their passion, nurture their growth, and unleash their full potential to become successful individuals.

“In the digital age, we must learn to learn, unlearn, and relearn.”
— Alvin Toffler

Unique Learner Profile (ULP)

UNIQUE LEARNER PROFILE

Personalised Growth

Tailored strategies for each learner's unique abilities, needs and learning preferences.

Neuroscience-Based

Utilising principles of brain function to optimise learning experiences.

10-Fold Development

Addressing cognitive, physical, social, emotional, ethical, creative, environmental, technological, cultural and spiritual dimensions of growth.

Digital Learning & Academic Collaborations

Our school embraces technology-driven learning to enhance classroom experiences and prepare students for the evolving digital world. Through the Litera Nova App, students benefit from innovative features such as augmented reality-based concept exploration, AI-assisted support, interactive simulations, engaging audio-visual lessons, and competency-based assessments that support personalised and self-paced learning.

To broaden academic exposure and strengthen analytical and problem-solving skills, the school collaborates with reputed educational platforms and Olympiad organisations such as Science Olympiad Foundation (SOF), Humming Bird Education, LogIQids, ULIPSU, and School Cinema by LXL Ideas. These programmes encourage curiosity, critical thinking, and holistic development while providing students with opportunities to participate in national and international academic initiatives.

Academic Programmes- CBSE Curriculum

Litera Foundational Stage – Nursery to Grade 2

Age Criteria:

Our Litera Foundational Stage integrates Kidzee's innovative 10-Dimensional Learning Methodology for Nursery to Senior KG, seamlessly transitioning into a strong academic foundation for Grades 1 and 2.

By blending dynamic early education with a holistic developmental approach, we nurture intellectual curiosity, emotional intelligence, and future-ready skills, unlocking each child's unique potential and setting them on a path to academic excellence.

Class	Age Range
Nursery - Senior Kg	3-6 years
I and II	6-8 years

Litera Preparatory Stage -Grades 3 to 5

The Preparatory Stage from Grades 3 to 5 transforms learning into a dynamic, real-world connected experience, preparing young minds to become active, responsible participants in their educational journey. By strategically nurturing each child's unique potential beyond traditional classroom boundaries, we lay the groundwork for holistic growth, introducing our innovative Litera Nova approach, which ignites curiosity, cultivates critical thinking, and empowers students to navigate an increasingly complex world with confidence, creativity, and a genuine passion for lifelong learning.

Age Criteria:

Class	Age Range
III- V	8-11 years

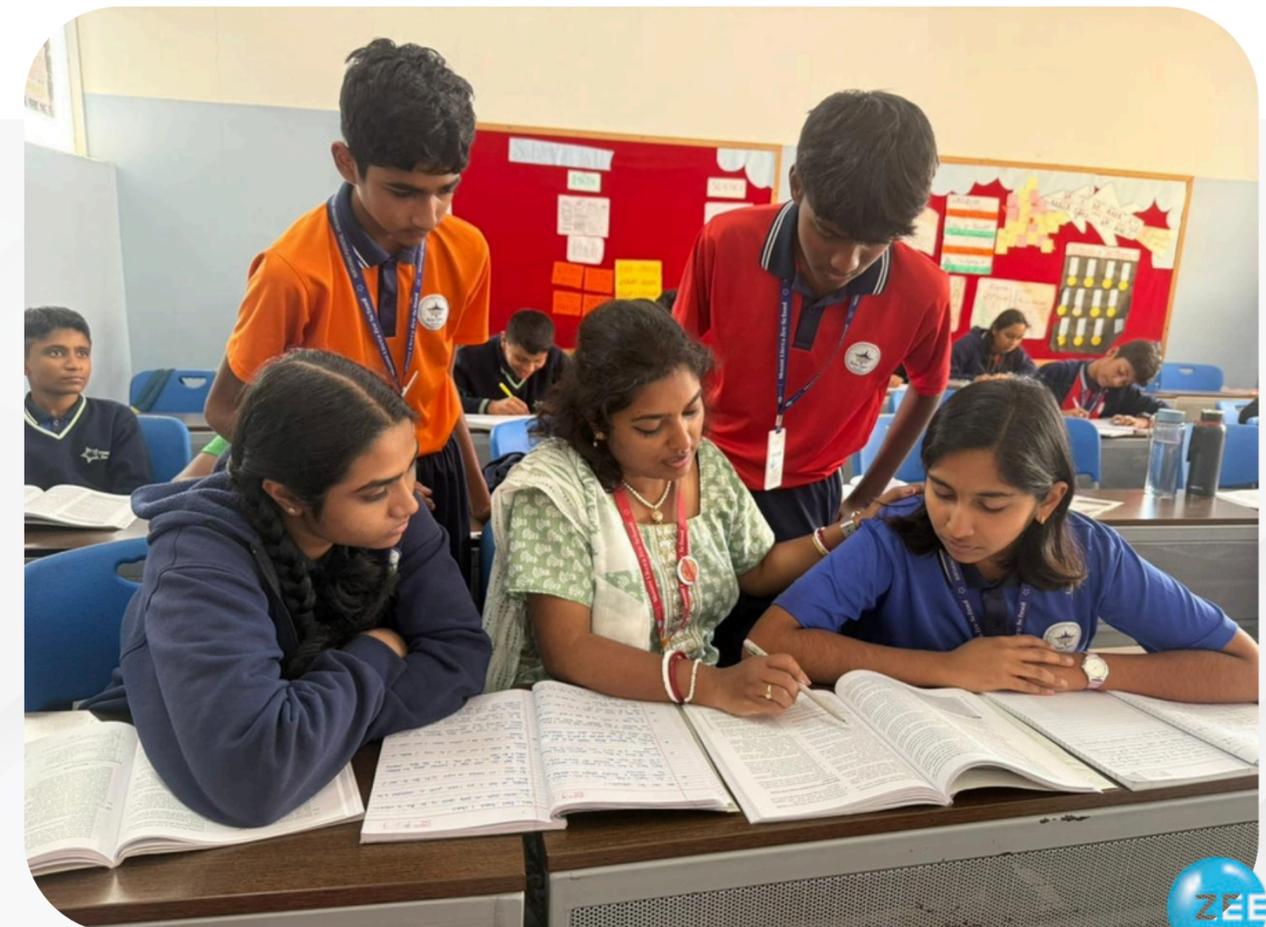

Litera Middle Stage – Grades 6 to 8

Age Criteria:

Our Litera Middle Stage (Grades 6 to 8) represents a transformative educational phase where intellectual curiosity meets social awareness, strategically designed to expand students' horizons beyond individual learning.

Through our distinctive Litera Nova approach, we craft an integrated learning ecosystem that empowers students to become independent thinkers, community contributors, and responsible learners, bridging academic knowledge with meaningful real-world experiences and guiding them to understand the profound connection between structured education and life's broader context.

Class	Age Range
VI- VIII	11 - 14 years

Litera Secondary Stage – Grades 9 to 12

Our Litera Secondary Stage (Grades 9–12) is a pivotal journey of academic and personal discovery, strategically crafted to shape future-ready scholars. We transform traditional education into a dynamic pathway that empowers students to explore their subject passions, develop critical skills, and build the intellectual resilience needed to thrive in an increasingly complex and competitive world.

Age Criteria:

Class	Age Range
IX- XII	14 - 18 years

New Initiatives/Innovation Drives/Strategic Initiatives

To further strengthen holistic and future-ready education, our school has introduced innovative initiatives that focus on global awareness, personalised learning, and skill development.

SDG (Sustainable Development Goals)

Aligned with the United Nations' Sustainable Development Goals, this initiative encourages students to develop awareness of global challenges such as environmental protection, responsible consumption, equality, and community well-being. Through activities and projects, students learn the importance of sustainability and responsible citizenship.

IDP (Individual Development Plan):

The Individual Development Programme focuses on nurturing each student's unique potential by providing a personalized and holistic learning experience. It supports students in developing essential life skills such as self-awareness, confidence, communication, and emotional intelligence. Through a variety of activities, reflective practices, and real-world connections, learners are encouraged to set goals, take initiative, and grow at their own pace. The programme aims to build independent, responsible, and well-rounded individuals equipped to face future challenges with resilience and adaptability.

New Initiatives

Kaushal Bodh:

Kaushal Bodh is designed to promote practical skills, creativity, and real-life competencies among students. The programme encourages hands-on learning experiences that build confidence, problem-solving abilities, and essential life skills required for the future.

Learning Beyond the Classroom

At our school, education extends beyond academics to nurture creativity, confidence, and overall well-being. Through a wide range of co-curricular activities, students are encouraged to explore their talents, develop discipline, and build essential life skills.

Dance and Music programmes provide students with opportunities to express themselves creatively while developing rhythm, coordination, and appreciation for the performing arts.

Physical Education (PE) promotes fitness, teamwork, and sportsmanship through structured sports and physical activities that support a healthy and active lifestyle.

Karate training helps students build self-discipline, confidence, focus, and self-defence skills while promoting physical strength and mental resilience.

Learning Beyond the Classroom

At our school, education extends beyond academics to nurture creativity, confidence, and overall well-being. Through a wide range of co-curricular activities, students are encouraged to explore their talents, develop discipline, and build essential life skills.

Chess enhances strategic thinking, concentration, and problem-solving abilities, encouraging students to think critically and make thoughtful decisions.

Specialised programmes such as FLIP (Financial Literacy Programme), which introduces students to the basics of money management, saving, and responsible financial decision-making.

Through **DCP (Digital Citizenship Programme)**, students learn to use technology responsibly, developing awareness about online safety, digital ethics, and responsible digital behaviour.

These programmes ensure that students grow into confident, responsible, and well-rounded individuals.

Through these enriching activities, students discover their interests, build confidence, and develop a balanced personality.

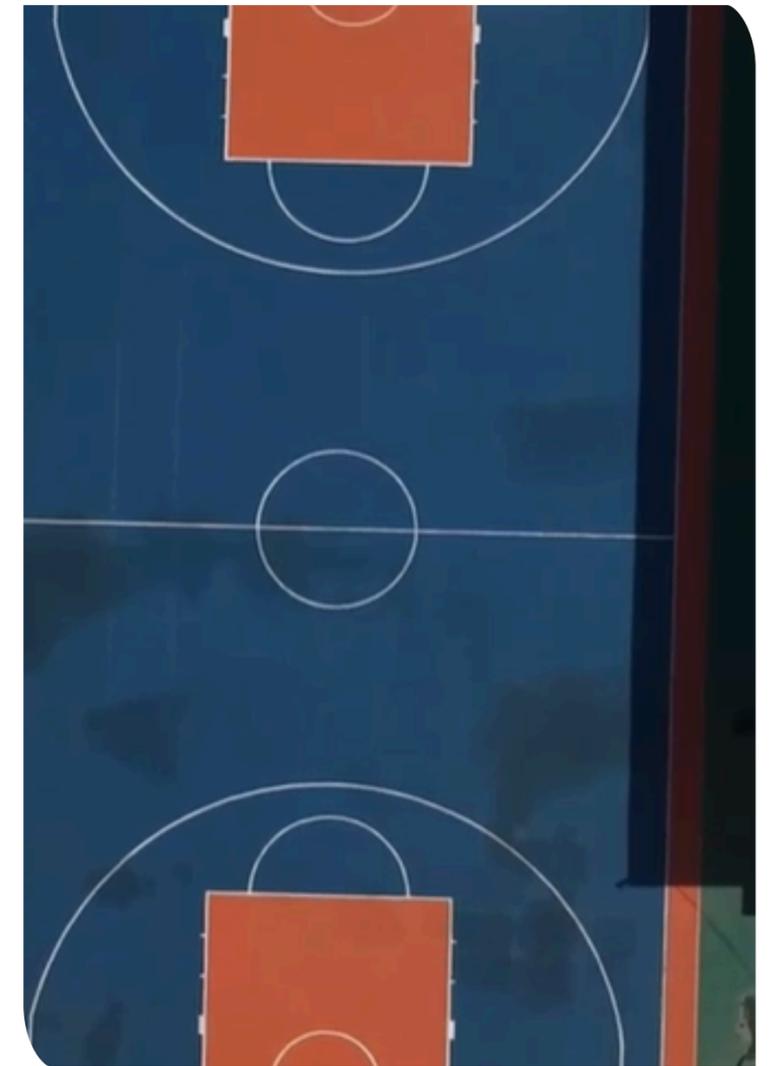

Parents Testimonials

“Mount Litera Zee School provides a nurturing and inspiring environment where children are encouraged to explore their potential. The teachers are supportive and dedicated, and we have seen remarkable growth in our child’s confidence and learning.”-Parent of Grade 5 student

“My children enjoy going to school every day. The curriculum encourages activities, life-skills learning, and educational visits, which help in the overall growth of the students.”- Parent Feedback on School Environment

“The teachers are dedicated and patient. The play-based learning approach makes school enjoyable, and my child has become more enthusiastic about learning.”- Parent of a Pre-Primary Student

40/123, Kumbena Agrahara, Kadugodi post, Bangalore- 67.
